Reach and Rogers Sald to Be After Ruale, and Cross, Tarner, Sullivan, Taylor, and Clements Are Mentioned in the Deni-Freedman Confers with the Quakers, PHILADELPHIA, June 22.—There is a big baseball deal on between the New York and Phila-delphia National League Clubs in which it is expected that Players Taylor, Turner, Clements,

Cross, and Sullivan may figure on one side, with Rusis and a sum of money on the other. Pres-ident Freedman of the New York Club has been closeted with Reach and Rogers all day to-day and left for home to-night without giving out any particulars. Reach opened the negotiations last Saturday when he visited Freedman in New York and made a proposition to him.

The Philadelphias have been such a source of disappointment this season that the local management decided recently to make radical banges, Carsey, Turner, Sullivan, McGill. Hallman, and one or two others have been marked for release, and Reach would like to make some bargain for them. It is understood that he wants to secure Amos Rusie from the New York Club, and that if things come down to cases, he will offer Taylor and Clements with

a bonus in exchange. Whether Freedman will consent to such transaction is a matter for conjecture, and as the local magnates absolutely refuse to talk on the subject it is a bit difficult to predict the out- tendance, 800. Time-2:40. Umpir come of the negotiations.

It is known that New York would gladly take Turner and Sullivan and would be willing to put up good money for them, for Manager Irwin when here last expressed a desire for the men. Turner to go in left field and Sullivan to play short stop. As both of these men ar marked to go, it seems reasonable to believe that Freedman will secure them by some means. Both can play strong ball, but the have been forced to play out of their regula positions and are dissatisfied.

It is also possible that Lave Cross may figure in the deal. Cross, who played a great third base last year, has been displaced by Nash, and is practically of little use to the club, except in that position, in which he has no superior. If that position, in which he has no superior. If Freedman would consent to let Rusie come here, possibly it might be in exchange for Turner, Sullivan, and Cross, providing, of course, he put up an additional purse on the side. Whatever is going on between the two clubs is being kept very quiet, but there is bound to be an explosion in a few days.

Testerday's Games.

The New Yorks and Brooklyns had an off day. but all of the other League clubs played yesterday. The Baltimores strengthened their lead by wolloping the Philadelphias once more, and the latter fell back to seventh place, being passed by both Washington and Pittsburgh. Clevelands were beaten by the Smoky City team, and Chicago took a fail out of Cincinnatius when a victory by Buck's men would have counted most. The Bostons lost a vitchers' battle to the Washington's, who come to the Pologrounds to-day to tackle the New Yorks. The results: Baltimore, 14; Philadelphia, 3,

Washington, 4; Boston, 3. Chicago, 3; Cincinnati, 1. Pittsburgh, 4; Cleveland, 9. Louisville, 5; St. Louis, 1.

Newrour, June 22.—Manager arthur Irwin is after John J. Cotter, first baseman and captain of the Newports. He saw Cotter play with the Jaspars against the New Yorks last spring and recently with the Newports at Newton, Mass. Cotter is a hard left-handed hitter and a clever baseman. Irwin wired Cotter on Saturday to come on, but he has been unable to get his release here.

H. S. Patterson Equals the Intercollegiate Record for 100 Yards.

WILLIAMSTOWS, June 22.—The annual commenceneut athletic games at Williams College for the Royt Cup were held this morning. The class of 1898 won, with 58 points; '98 was second, 84 points; '97 was third, 28 points, and '99 fourth, 11 points. H. S. Patterson, '96, of New York city equalled the intercollegiate record in the 100-yard desh against a head wind, his time being 10 seconds.

Oakigy, June 22.—It was a bad day for the talent, as some of the races that looked to be sure for odds on favorites were taken by long shots and in spirited finishes. Summaries:

NOW FOR THE SUBURBAN. LAST OF THE BIG SPRING HANDI-CAPS TO BE RUN TO-DAY.

Clifford and Henry of Navarre the Stars of the Small Field Which Will Go to the Post The Double Event Has Eight Nomitions and the Malden Ruce Twenty-two The Suburban Handicap will be run at Sheepshead Bay this afternoon, and from present indications the crowd which will turn out to see Henry of Navarre, Clifford, and the other cracks try conclusions for the prize will be a record breaker. The Coney Island Jockey Club track is by far the most picturesque of the many racing headquarters in this country, nature and art both lavishing their choicest gifts on the beautiful spot.

The first Suburban Handleap was won by

General Monroe, and those who were fortunate enough to be present that day will not soon forget the battle through the stretch between the old horse, War Eagle, and Jack of Hearts. There have since then been many desperate struggles for the mastery in this stake, but the first Suburban, like the first Brooklyn Handicap, when Dry Monopole, Blue Wing, and Hidalgo finished heads apart, will be cherished in the memory of all while life endures. Today's race should be worthy to take its place in history with those named above, for where in this country can two horses of higher class than Henry of Navarre and Clifford be found? Both are trained to the hour, and if defeat comes there should be no searching for excuses finding of fault by anybody. The field is perhaps the smallest that has ever gone to the post for a Suburban, but all who love fair play and want to see the best borse win must rejoice at this, as every horse will have a free field and there will be less chance of fouling and interference than there would be if a dozen or more candidates went to the post. Now and then the best horse in a race does not win. Sometimes stupid orders mili-tate against the success of a horse, and sometimes a juckey errs, makes his run too soon or too late, or gets his mount in a pocket, from which he is unable to extricate himself in time to snatch the victory which was almost within his grasp. A horse may be pocketed in a field of five or six but there is less chance than if a

of five or six, but there is less chance than if a dozen competitors were engaged.

There is no doubt that Clifford will be the favorite with the speculators, especially since it has been rumored that Keenan beat his stable companion in their last work. Henry of Navarre was never much of a parader in the morning, but he can race with the colors up in the afternoon, and race in a way to make the racing public enthuse every time he is brought upon the track. Perfect indisposition and conformation, game to the core, and possessed of a world of speed, there is no wonder at his being the idoi of the public. Clifford, however, is so nearly the equal of the liemton champion that the speculators have figured that he cannot give Mr. Hose's favorite four pounds and a beating. If the race were at a mile there would not be a bound between them, but somehow the impression has been conveyed that Clifford is not fond of any distance beyond a mile and a furlong. This was true in a measure, as far as the horse's four and five-year-old form goes, but he has lost that slight thickness of the breathing which characterized him in 1895, and is to all intents and purposes as sound as hewas when he was three years old. At that age he ran a marvellous mile and a quarter at Latonia, yet suffered defeat for the Derby at 1895, and is to all intents and purposes as sound as he was when he was three years old. At that age he ran a marvellous mile and a quarter at Latonia, yet suffered defeat for the Derby at Chicago when Boundless won. Last year Navarre could always handle Clifford at any distance over a mile without any great effort, but at a mile it was as pretty a race as anybody would care to see. Henry of Navarre has started but once this year, and he did not have to race at all in order to win. Clifford, on the contrary, has shown marvelious speed every time he has gone to the post this year, and while beaten for the Brocklyn Handicap he ran auch a remarkable race that no man left the grounds without singing the praises of the son of Bramble. He was many pounds the best horse in the race, it is on the strength of his splendid performance that day that he has been made favorite for to-day's race. Taral will ride him, and that is a big inducement for the talent to back him, as the Dutchman makes few mistakes and never stops riding until the wire is reached. It is this characteristic which has

made favorite for to-day's race. Taral will ride him, and that is a big inducement for the talent to back him, as the butchman makes few mistakes and never stops riding until the wire is reached. It is this characteristic which has made Taral so successful.

Let nobody delude himself with the idea that Henry of Navarre will not reach the wire at a record-breaking clip. The chestnut horse was never better than he is at present. He will be prepared to run from the drop of the flag until the wire is reached.

It seems idle to look beyond Navarre and Clifford for the winner of the race. The rain of Sunday made the track a quagnire, and for a few hours raised hopes in the hearts of that prince of muliarks. Hornpipe: but the sun and wind dried the track out very rapidly yesterday, and last evening it was dry enough to run the Suburban over, and make fast time at that. Helmar and Nanki Pooh were a snifty pair of four-year-olds, but they appear to be outclassed. Sir Walter, game and honest to the core, is overmatched at the weights, and The Commoner is a doubtful starter. No doubtful starter has yet won a Brooklyn or a Suburban. The balance of the programme promises good aport. The fields are unusually large, no fewer than twenty-two maiden two-year-olds being named for the fifth race. For the Double Event, Don de Oro and George Kessler, respective winners of fairly high class should make an interesting contest for the major part of the stake.

NEWS OF THE WHEELMEN.

AMATEURS ARE CHARGED WITH VIOLATING THE RULES. Officials of the L. A. W., It Is Reported.

Are Investigating the Matter-Want the Elevated Railroads to Carry Wheels-Success of an American Team in France, The Racing Board of the L. A. W. is reported to have started an investigation of leading ama tenr riders, regarding the payment of their expenses during the circuit races and the charges that they are receiving remuneration from the trade. It was reported vesterday that Chairman Gideon will probably suspend C. W. Hadfield, the Newark rider who violated the racing rules in the Millburn road race, until he can explain satisfactorily the rumors that he is in the employ of a bicycle firm and competing in amateur races. In addition to Hadfield's case, it is alleged that a racing team on the New York State circuit is having its expenses defrayed by an athletic club in this city. Such a practice is contrary to the L. A. W. racing rules, and if

fessional ranks.

The Racing Board, it is said, has received hints that a well-known member of the Riverside Wheelmen, who is now following the circuit, is doing so at the expense of a bicycle house. His case is also under investigation The Racing Board is being kept well informed this year of the movements of the racing men It is stated that one bleycle manufacturer has list of 350 racing men who are riding his wheel In amsteur events throughout the country, and that they receive from \$3 to \$5 for every wir and \$2 for every second place they score. This practice, it is further said, has been in operation since the opening of the racing season.

Word was received in this city yesterday that in the international team race at Bordeaux, France, on last Sunday, the American professional team consisting of Charley Murphy o Brooklyn, Harry Wheeler of Orange, and Earl Kiser of Dayton, O., finished first. In the inter national scratch event Murphy is credited with victory. He defeated a number of wellknown foreign racing men who have recently defeated John S. Johnson, the crack American professional, Murphy, Wheeler, and Kiser have been in France about three weeks, training for the big cash prize races. Sunday was their first appearance. It is their intention to make a tour of Europe and take part in every important race meeting held. They are likely to race against Johnson and McDenald, the other Americans now racing abroad.

The riders of this city are greatly interested in the suggestion to induce the elevated railroad companies to carry bicycles. This plan has been in practice in Brooklyn during the past year and has been a great convenience to all riders, business men living up town particularly. A delegation of local riders called on A. G. Spalding, who is a member of the Cycle Board of Trade, yeaterday in relation to this question, claiming that it calls for the aid of all influential wheelmen. Mr. Spalding agrees that the plan is an excellent one, and says that he will do all in his power to help the wheelmen. He suggests that the hisyele riders should go still further and see if arrangements cannot be made to have the cable roads, particularly the Broadway and Third avenue lines, carry bicycles up town and down town during certain hours of the day. He claims that many down-down business men who are cyclists would take great pleasure in nightly trips to Coney Island, Staten Island, and over the Hudson country boulevard if arrangements could be made for the transportation of wheels. gation of local riders called on A. G. Spalding,

Double century runs are a new departure in long-distance bicycle trips, and as a result only sixteen men participated in the 200-mileride of the Manhattan Hicycle Cub on last Sunday. The course was over the New Jersey roads, including the Hudson county boulevard. A time limit of twenty-four hours was set, and fifteen riders finished at Hoboken shortly after noon on Sunday inside of the limit. A. W. Evans of the New Hrunswick B. C., who took part in the century run of the Associated Cycling Clubs of New Jersey from Newark to Asbury Park, on the same day, joined the Manhattans after finishing at Asbury Park and completed 300 miles in thirty-three hours. All the men finished on time except C. P. Staubach, who was delayed I hour and 10 minutes with mishaps to his wheel. Those who remained in the run were: Double century runs are a new departure in

As the season advances and bicycle riders go into the country for long runs, the advantage of brakes on wheels becomes apparent. The persons who are accustomed to take outings in central Park and on the Boulevard ridicule the necessity of a brake, but its usefulness when an all-day run or when all grades of roads are encountered is made manifest by the great number of riders who are met walking down steep hills. All women's wheels are fitted with brakes, but it can be noticed, in watching the processing of warmen on lityerside briggs that hills. All women's wheels are fitted with brakes, but it can be noticed, in watching the procession of wemen on liverside Drive, that some have become so infected with the antagonism against brakes, that they have had them removed. An expert wheelman, in discussing the brake question yesterday with Thr. Sen reporter, said: "The refusal of persons to carry a brake on their wheels accounts for the great number of accidents to riders. Brakes do not add any additional weight to a bloycle that is at all detrimental to a rider. When a wheel is fitted with a brake a rider can feel assured that he can stop his wheel at once, and I know from practical experience that back pedalling is not as good as a brake. I regard a bicycle brake comething like a pletol. It is father clumsy to carry, but when wanted its possession is always needful at a critical moment."

Thoy, June 22.—The race meet of the Troy Bicycle (Jub was held at Ronsselaer Park to-day before nearly 2,500 persons. In the profes-sional class Hald wen one event, and only for an accident to Randall of Rochester, who fell in sections to Randall of Rochester, who fell in the handicap, he would most likely have captured it also, as he was in a good position, having started from the scratch, caught his field, and had to turn wide when Randall fell, losing fully forty yards and finishing fifth, only three yards behind the winner, C. H. Callahan, J. A. Powell of the N. Y. A. C., who has been doing so well on the circuit this season, captured everything in the amateur class. Summary follows:

To the wheelman or wheelwoman of endurance and nerve, who desire a trit for pleasure, none affords more of the real article than that to the belaware Water Gap. Fred C. Smith, the tennis player, and John W. Haines, both of Ridgewood, N. J., made the trip on Saturday. They avoided all stimulants, and had only beef-steak, eggs, and coffee at meals, and drank milk at the reating points. They began their trip at 4:08 o'clock on Saturday morning, reaching Suffern, ten miles, at 6:20. The reads to Tuexedo were of the best, and the beauties of the Ramapo Mountains and valley were constantly in view. They reached Arden, twenty-seven miles, at 7:25; Monroe, thirty miles, at 7:40; Chaster, thirty six miles, at 8:29, where they rested for fifteen minutes.
